

小谢尔顿-S01E03-音频

My father took pride in saying that he ran our house like a tight ship.

我父亲自豪地说他把家管得像一艘紧绷的船。

The ship got a lot looser when my Meemaw came over to babysit.

当我外婆过来 babysit（照看）时，这艘船（家里）就放松多了。

I bet a nickel.

我打了个五分硬币的赌。

Hang on there a minute, Moon Pie.

等一下，月亮派。

I want to teach you something.

我想教你一些东西。

Look at your cards, and then look in the mirror.

看看你的牌，然后再照照镜子。

Hey, I'm smiling.

嘿，我在微笑。

Uh-huh.

嗯哼。

And what does that tell me about your cards?

那又告诉我关于你的牌些什么呢？

That I like them.

我喜欢他们。

Atta boy.

阿塔男孩。

Now, look at my face.

现在，看看我的脸。

Tell me what you see.

告诉我你看到了什么。

That you're old.

那你就老了。

It's a good thing I love you.

幸好我爱你。

I'm going to look at my cards again.

我再看看我的牌。

You're unhappy.

你不开心。

Which means?

什么意思？

You don't have good cards.

你没有好牌。

Mm-hmm.

嗯嗯。

So, I'm gonna see you, Nickel, and raise you a quarter.

所以，尼克尔，我跟了，再加个两毛五。

Quarter?

季度？

You can fold.

你可以弃牌。

No, I have good cards.

不，我有好牌。

You have bad cards.

你手气不好。

I'm in.

我进来了。

Nines and fives.

九和五。

Mm, that's too bad.

嗯，那太糟糕了。

Three queens, you lose!

三个皇后，你输啦！

What?

什么？

But you were unhappy.

但是你并不开心。

I made you think I was unhappy.

我让你以为我不开心。

But that's lying.

但那是在撒谎。

You lied to your moon pie.

你骗了你的月亮派。

I bluffed my moon pie.

我吹嘘了我的月亮派。

Do people know about this?

人们知道这件事吗？

Sheldon, what's on a person's face is not always what's in their heart.

谢尔登，一个人脸上表现出来的不总是他们心里想的。

Well, this changes everything.

好吧，这改变了所有事情。

How do you know who to trust?

你怎么知道该信任谁？

You don't.

你不需要。

That's what makes life interesting.

那就是生活有趣的地方。

Meemaw liked to teach me things that kept me awake at night.

外婆喜欢教我一些让我夜不能寐的东西。

In here!

进来!

What's he doing up?

他怎么起来了?

Losing.

输。

The hell is that?

那是啥玩意儿?

I sent Georgie on a beer run and tipped him with firecrackers.

我派乔治去买啤酒,并给了他几串鞭炮作为小费。

Oh, Mom.

哦,妈妈。

Was I supposed to stiff him?

我应该是给他少给点钱吗?

I hate so much candy!

我讨厌这么多糖果!

Okay.

好。

They're all yours.

它们都归你了。

Yesterday I'm in the mountain, I don't know where I am.

昨天我在山上,不知道自己在哪里。

Sometimes people say to me, Pastor Jeff, how do you know there's a God?

有时人们会问我,杰夫牧师,你怎么知道有上帝呢?

And I say it's simple math.

我说这很简单。

God either exists or he doesn't.

上帝要么存在,要么不存在。

So let's be cynical.

所以让我们变得愤世嫉俗一下。

Worst case scenario, there's a 50-50 chance.

最坏的情况,有五五开的几率。

And I like those odds.

而且我喜欢那样的几率。

That's wrong.

这是错误的。

Shelly, put your hand down.

雪莉，把手放下。

Sorry, please continue.

抱歉，请继续。

It's okay, Mary.

没关系，玛丽。

It's Sheldon, right?

是谢尔登，对吧？

Yes, sir.

是的，先生。

Well, Sheldon, why don't you come on up here and tell me how I'm wrong?

好吧，谢尔登，你为什么不上来告诉我我哪里错了呢？

No.

不。

Okay.

好。

Let's give him a hand, everybody.

让我们一起给他点掌声。

What's happening?

发生了什么事情？

Shelly's gonna eat him alive.

雪莉要吃他活的了。

So, you were saying?

所以，你刚才说的是？

You've confused possibilities with probabilities.

你把可能性和概率混淆了。

According to your analogy, when I go home, I might find a million dollars on my bed, or I might not.

根据你的比喻，当我回家时，可能会发现床上有100万美元，也可能没有。

In what universe is that 50-50?

在哪个宇宙里这是五五开的？

So what do you think the odds are that God exists?

那么你认为上帝存在的概率有多大？

I think they're zero.

我认为它们是零。

I believe in science.

我相信科学。

So you don't think science and religion can go hand in hand?

所以你认为科学和宗教不能并行不悖？

Science is facts.

科学是事实。

Religion is faith.

宗教是信仰。

I prefer facts.

我更喜欢事实。

I understand that.

我明白这一点。

Here's a cool fact for you.

这里有一个酷事实。

A lot of famous scientists believed in God.

许多著名的科学家都相信上帝。

Isaac Newton, Albert Einstein, even Charles Darwin.

艾萨克·牛顿、阿尔伯特·爱因斯坦，甚至查尔斯·达尔文。

So Darwin's right about God and wrong about evolution?

所以达尔文关于上帝的说法是对的，但关于进化论的说法是错的？

Now you're getting it.

现在你明白了。

Let's give it up for Sheldon, everybody.

让我们一起为谢尔登鼓掌。

What a good sport.

真是个好脾气。

But I wasn't a good sport.

但我不是个好体育。注：此处的“好体育”是指“好的运动家精神”，即在竞争或比赛中保持良好的态度和风度。更自然的表达可以是“但我没有表现出良好的运动家精神。”但如果要严格按照字面翻译，就是上述结果。

At that moment, I vowed to come back the following Sunday and destroy Pastor Jeff.

在那一刻，我发誓下周日回来并摧毁杰夫牧师。

Uh, hello, Mr. Cooper.

呃，你好，库珀先生。

Is Messi home?

梅西在家吗？

Hello, Billy.

你好，比利。

No, she's at church.

不，她在教堂。

I brought her eggs for my chickens.

我给她带了些鸡蛋给我的鸡。

I see that.

我明白这一点。

You can boil them or scramble them.

你可以煮它们或炒它们。

Okay.

好。

I like fried.

我喜欢炸的。

Okay.

好。

I don't like poached.

我不喜欢被敲诈的。

Okay.

好。

Thank you for your time.

感谢您的时间。

Okay.

好。

You want me to cook those eggs for you, baby?

你想让我给你煮那些鸡蛋吗，亲爱的？

No, they're a gift.

不，它们是礼物。

Sorry.

不好意思。

He even wrote me a note.

他甚至还给我写了一张便条。

Eggs from your secret admirer, Billy.

比利给你的情人蛋。

Mary, can you come in here?

玛丽，你能进来一下吗？

I'm cooking.

我在做饭。

I really need you to come in here.

我真的很需要你进来。

What on earth?

怎么回事？

Uh-oh.

啊哦

Wyatt, listen to this.

怀亚特，听这个。

French philosopher, mathematician, and physicist Blaise Pascal argued a rational person should believe God exists because you have everything to gain if you're right and nothing to lose if you're wrong.

法国哲学家、数学家和物理学家布莱兹·帕斯卡认为，一个理性的人应该相信上帝的存在，因为你如果正确了就会得到一切，而如果你错了也不会失去什么。

Sounds all right.

听起来还不错。

Meemaw is coming over to watch you.

外婆过来陪你。

I gotta go.

我得走了。

Where?

在哪里？

Daddy's not feeling good.

爸爸感觉不舒服。

We're gonna go see a doctor.

Can we come with you?

我们可以跟你一起去吗？

No, just stay right there.

不，就待在那儿别动。

Don't move.

别动

George, let's go!

乔治，快走！

How am I supposed to sit here?

我觉得我丈夫心脏病发了。

I need an RRT and a crash car.

我需要一个快速反应小组和一辆救护车。

Over here.

这边。

Sir, are you having chest pains right now?

先生，你现在胸痛吗？

Yeah, a little bit.

是的，有一点。

Any numbness or pain in your arms?

你的胳膊有任何麻木或疼痛吗？

Maybe this one.

也许这个吧。

Shortness of breath?

呼吸急促？

Enough questions.

足够的问题。

He's a fat middle-aged man with chest pains.

他是个胸部疼痛的中年发福男子。

Do something.

做点什么。

Sorry about the fat, honey.

对不起，亲爱的，肥了。

You said you liked me this way.

你说你喜欢我这样。

Is Daddy gonna be okay?

爸爸会没事吧？

Oh, yeah.

哦，是的。

Your pop-pop used to have little chest pains all the time.

你外公以前经常会有轻微的心绞痛。

Didn't he die of a heart attack?

他不是因为心脏病发作去世的吗？

Well, for insurance purposes, yes.

好吧，为了保险起见，是的。

Hey, what's going on?

嘿，发生什么事了？

Dad's in the hospital.

爸爸在医院。

What?

什么？

Why's Dad in the hospital?

爸爸为什么住院？

He's gonna be fine.

他会没事的。

He had chest pains.

他出现了胸痛。

He's gonna be fine.

他会没事的。

What do we do?

我们该怎么办？

Why aren't we going to the hospital?

我们为什么不去医院？

Nobody's going nowhere.

没人会走。

We're just gonna stay calm, have a nice dinner, and wait for your mama to call and tell us what's what.

我们just保持冷静，吃个愉快的晚餐，然后等着你妈妈打电话告诉我们具体情况。

I'm not hungry.

我不饿。

What did you mean by insurance purposes?

你所说的保险用途是什么意思？

Just eat.

只是吃。

What kind of Texan drinks pink wine?

什么样的德州人喝粉红葡萄酒？

Hello?

你好？

Hi, Mom.

嗨妈妈

Kids okay?

孩子们好吗？

Yeah, they're fine.

嗯，他们挺好的。

How you holding up?

你撑得住吗？

I guess I'm okay.

我想我还好吧。

Well, George is gonna pull through this, honey.

好吧，乔治会挺过这一关的，亲爱的。

I guarantee it.

我保证。

感谢你的陪伴。

You bet.

没问题

I'll call you later.

It's the same thing.

这是一样的。

但是你坐在农民的腿上。

Then stay here.

那就待在这里。

Come on, Missy.

来吧，米西。

Sure you can.

当然可以。

Believe in yourself.

相信自己。

Let's go.

我们走吧。

This is awesome.

这太棒了。

Despite what it looks like, I didn't pray to God that night.

尽管看起来像是那样，那晚我并没有向上帝祈祷。

I prayed to Blaise Pascal.

我向布莱兹·帕斯卡祈祷。

My thinking was, if he was right about the existence of God, then he could pass along my request for my dad to get better.

我的想法是，如果他关于上帝存在的看法是对的，那么他就能转达我希望我爸爸好转的请求。

If he was wrong, well, in this moment, I needed him to be right.

如果他错了，好吧，在这一刻，我需要他是正确的。

What's taking so long?

怎么回事，这么慢？

Shh.

嘘。

小点声，偷车贼。

I didn't steal your car.

Do not come to me.

不要来找我。

Good news.

好消息。

Your daddy's going to be fine.

你爸爸会没事的。

Should be home in a day or two.

应该一两天后就能回家。

Oh.

哦。

And was it a heart attack?

那是心脏病发作吗？

Minor.

小于。

No permanent damage.

没有永久性损伤。

Oh, that's wonderful.

哦，太棒了。

Our prayers have been answered.

我们的祈祷得到了回应。

Come on, everybody.

来吧，大家。

Let's say hello to your old dad.

让我们向你那老父亲问好。

For a brief moment, I was filled with the healing power of faith.

在那一刻，我充满了信仰的治愈力量。

Then the next day, we all got violently ill from Billy Spark's eggs, and I was over it.

然后第二天，我们所有人都因为比利·斯帕克的鸡蛋而严重食物中毒，我受够了。

I thought I'd talk this morning about how it all began.

我想今天早上谈谈这一切是如何开始的。

Now, everybody knows on the first day of creation, God said, let there be light.

现在，每个人都知道，在创造的第一天，上帝说，要有光。

And there was light.

于是有了光。

And when God saw that light, he knew it was good.

当上帝看到那道光时，他知道那是好的。

Oh, here we go.

哦，来了。

Yes, Sheldon.

是的，谢尔顿。

You said he didn't create the sun until day four.

你说他直到第四天才创造太阳。

Yeah.

是的。

So how could there be light the first three days?

那么前三天怎么会有光呢？

God is light.

上帝是光。

So God's a photon?

所以上帝是个光子？

God's what made photons possible.

是上帝让光子成为可能的。

And what day did he do that?

他是在哪一天做的那件事？

I would think day one.

我想应该是第一天。

I'll grab my chest and keel over.

我会捂着胸口然后倒下。

Maybe we can get out of here.

也许我们可以离开这里。

That's a terrible thing to say.

那是很糟糕的话。

Because the first day had just begun.

因为第一天才刚刚开始。

So before the Big Bang?

所以在太爆炸之前？

There was no Big Bang.

没有大爆炸。

There was only the word.

只有那个词。

Was the word kaboom?

这个词是“kaboom”吗？

Okay, do it.

好的，做吧。

We gotta go.

我们得走了。

What's happening?

发生了什么事情？

Is it over?

结束了吗？

Yeah.

是的。
